

**** Update as of March 30, 2020 ****

Dear AF Students and Members,

First of all, I would like to thank you for your continued support and patience during this challenging period. I hope you and your families are safe and healthy.

As many of you are aware, we began making preparations last week to establish the ability to teach remotely. I am happy and proud to report our teachers and students alike rose to this challenge, and we started conducting our first group classes as of last week!

So far, we have received significant positive feedback regarding students' first experiences of **LIVE ONLINE learning**.

We will continue to refine and improve on these initial steps with the goal of providing you the same interactive learning experience you have come to expect from the Alliance Française, while allowing you to adapt to the current situation.

We will be able to host all of our classes through the end of the Early Spring session and beyond.

Our next step will be to provide you cultural and relevant content via our different social media channels in order to provide you some entertainment and relief, all while learning French or about French or Francophone culture of course!

Merci et a très bientôt - en ligne!

Patricia Meausoone, Executive Director
